

Raushan Kumar Goshwami

Java Backend Developer | Spring Boot, Microservices, REST APIs | MySQL, Docker, Git, AWS

✉ raushtechwatson@gmail.com

☎ 8983487540

📍 Mumbai, Maharashtra

Skills

Backend Development

Spring Boot, REST, APIs, Microservices (basic), MVC Architecture

Programming Languages

Java, SQL, Kotlin

Databases

Sql, MySql, Oracle, Relational DB, NOSQL, Redis, H2, MongoDB, Schema Design, System Design, ACID, BASE, Database Design, Indexing, Query Optimization, Joins

●●●●○

Java

java8, java17, Streams, Lambda Expression, Interfaces, OOPs Paradigm, SOLID principle, LLD(Low Level Designs), Design Patterns

●●●●○

SpringBoot

SpringBoot, Kafka, Redis, Service Discovery, Eureka server, Spring cloud, spring Data, Load Balancer, Gateway, IOC, REST, Annotations, Hibernate, JPA, Public IPS, Ports

●●●●○

Git

VCS, Github, GitLab, BitBucket

●●●○○

PostMan

Api, Api Testing

●●●●○

IntelliJ Idea

- Aspiring Backend Developer with hands-on experience in Java, Spring Boot, and MySQL. Proficient in developing RESTful APIs, database design, and query optimization. Background in Android development and SQL-based systems. Strong understanding of Data Structures and OOP concepts, with a focus on building efficient and scalable applications.

Education

K.C College of Engineering and IT

B.Tech • 76.3 cgpa

Computer Science

Nawanshah, Punjab • 2013-2017

- Graduated in Computer Science with focus on Data Structures, Algorithms, DBMS, and OOP concepts.

- Developed strong programming skills in Java and SQL.

- Worked on academic projects involving application development and database design.

- Built a solid foundation in problem-solving and software development practices.

Experience

Intellect Design Arena Limited

Mumbai ,Maharashtra

Associate Consultant

Jul -2022 To till now

- Developed and maintained backend services using Java and Spring Boot.

- Built and consumed REST APIs for scalable application architecture.

- Worked with MySQL for database design, queries, and optimization.

- Collaborated with team members in Agile environment for timely delivery.

- Identified and fixed bugs, improving system performance and reliability.

Korawan India MultiVenture Limited

Danapur ,Saguna More, Patna ,Bihar

Android Developer

Nov-2020 to Dec-2021

- Built and enhanced Android applications using Java/Kotlin and Android SDK.

- Designed intuitive UI/UX components using XML layouts.

- Integrated RESTful APIs and handled JSON data parsing.

- Optimized app performance and resolved bugs for better user experience.

- Worked in Agile environment and collaborated with cross-functional teams.

⚙️ **HLD**

SQL, NoSql, Trade Offs, Sharding,
Replication, Caching, CDN, Vertical Scaling,
Horizontal Scaling, Gateway, Load Balancers

⚙️ **Android Development**

Android Development, xml, json, Compose,
Kotlin, MVVM, MVC, Coroutines, HILT,
Dagger, Retrofit, Gradle, Android SDK,
Object-Oriented Programming (OOP), XML
UI Design, API Integration

⚙️ **Tools & Technologies**

Git, GitHub, BitBucket, GitLab, Docker
(basic), Postman, Maven / Gradle, AWS
(basic), Kubernetes (basic), CI/CD

- Developed and optimized SQL queries using MySQL for efficient data retrieval.

- Designed database schemas, tables, and relationships for structured data management.

- Worked with joins, indexing, and query optimization techniques to improve performance.

- Generated reports and analyzed data to support business decision-making.

- Ensured data consistency, integrity, and security within the database.
