

Raushan Kumar Goshwami

Java Backend Developer | Spring Boot, Microservices, REST APIs |
MySQL, Docker, Git, AWS

✉ raushtechwatson@gmail.com ☎ 8983487540

📍 Mumbai, Maharashtra

Skills

Backend Development

Spring Boot, REST, APIs, Microservices (basic),
MVC Architecture, Spring Security, JWT, OAuth2,
Swagger

Programming Languages

Java, SQL, Kotlin

Databases

Sql, MySql, Oracle, Relational DB, NOSQL, Redis,
H2, MongoDB, Schema Design, System Design,
ACID, BASE, Database Design, Indexing, Query
Optimization, Joins

●●●●○

Tools & Technologies

Git, GitHub, BitBucket, GitLab, Docker (basic),
Postman, Maven / Gradle, AWS (basic),
Kubernetes (basic), CI/CD

●●●●○

Android Development

Android Development, xml, json, Compose,
Kotlin, MVVM, MVC, Coroutines, HILT, Dagger,
Retrofit, Gradle, Android SDK, Object-Oriented
Programming (OOP), XML UI Design, API
Integration

Summary

Java Backend Developer with 3.5+ years of experience in Spring Boot,
Microservices, and REST APIs

Education

K.C College of Engineering and IT

B.Tech • 76.3 cgpa

Computer Science

Nawanshah, Punjab • 2013-2017

- Graduated in Computer Science with focus on Data Structures, Algorithms,
DBMS, and OOP concepts.

- Developed strong programming skills in Java and SQL.

- Worked on academic projects involving application development and
database design.

- Built a solid foundation in problem-solving and software development
practices.

Experience

Intellect Design Arena Limited

Mumbai ,Maharashtra

Associate Consultant

Jul -2022 To till now

- Developed and maintained backend services using Java and Spring Boot.

- Built and consumed REST APIs for scalable application architecture.

- Worked with MySQL for database design, queries, and optimization.

- Collaborated with team members in Agile environment for timely delivery.

- Identified and fixed bugs, improving system performance and reliability.

Korawan India MultiVenture Limited

Danapur ,Saguna More, Patna ,Bihar

Android Developer

Nov-2020 to Dec-2021

- Built and enhanced Android applications using Java/Kotlin and Android
SDK.

- Designed intuitive UI/UX components using XML layouts.

- Integrated RESTful APIs and handled JSON data parsing.
- Optimized app performance and resolved bugs for better user experience.
- Worked in Agile environment and collaborated with cross-functional teams.

TCS

Pune

Business Associate

Feb-2018 to Nov-2018

- Developed and optimized SQL queries using MySQL for efficient data retrieval.
- Designed database schemas, tables, and relationships for structured data management.
- Worked with joins, indexing, and query optimization techniques to improve performance.
- Generated reports and analyzed data to support business decision-making.
- Ensured data consistency, integrity, and security within the database.

Projects

SCF(Supply Chain Finance)

Jul-22 To Dec-23

Project: Supply Chain Finance (SCF) Platform – Intellect Design Arena

- Built and enhanced backend services using Java and Spring Boot for invoice financing and payment processing modules
- Developed 15+ REST APIs supporting invoice lifecycle, approval workflows, and financial transactions
- Improved database query performance by ~30% through indexing and query optimization in MySQL
- Implemented event-driven architecture using Kafka for real-time transaction updates
- Reduced API response time by ~25% using Redis caching
- Contributed to scalable microservices architecture handling high-volume financial data
- Worked in Agile/Scrum environment, collaborating with QA, frontend, and DevOps teams

<https://www.intellectdesign.com/>

Client Project: Barclays – Enterprise Banking Platform

Jan-24 To Jul-24

Contributed to the development of a large-scale banking application for Barclays, focusing on backend services, API integrations, and high-performance systems.

- Developed scalable backend services using Java and Spring Boot for handling financial transactions
- Built and enhanced 10+ REST APIs for secure data exchange across banking systems
- Optimized MySQL queries and improved performance using indexing and query tuning
- Worked on microservices-based architecture for modular and scalable system design

- Implemented validation and business rules for transaction processing and data integrity
- Collaborated with QA, frontend, and DevOps teams in Agile/Scrum environment
- Handled production issues and improved system reliability for high-volume operations

Certifications

Java Development(Pro-J2EE)

22/12/16

Ducat Noida

Completed 6-month Industrial Training and Internship in Advanced Java, focusing on backend development and enterprise application concepts.

<https://www.ducatinidia.com/>

InfoEdge Course

aug -2013

NIIT Patna

Completed 3-month certification program covering essential Microsoft Office tools.
